## Part III: Guided Writing

### Task A

Hi Rachel,

Thank you for your last email! I was happy to hear that your parents are going to pay for your flight – that's fantastic!

The two destinations sound great and you'll have to think carefully about the pros and cons of both of them. The tasks you would have to do in the jobs are completely different. In my opinion, the animation job sounds far more interesting because you can work in a team and have personal contact with the holiday makers. I'm sure it's interesting to work with people who travel there from all over the world! It's a job you'll have to be creative in when making up activities and games for the vacationers. Working as a waitress, you only have to serve meals to the guests, wash dishes and sell coffee and cake; you might also have to prepare the bills.

The locations of the two destinations are as different as chalk and cheese – Wellington as a capital offers big city life whereas the resort is sure to have some wonderful beaches and forests.

This is in connected with how you want to spend your spare time. If you'd like to go on sightseeing tours, have dinner at elegant restaurants or watch the latest movies in big cinemas, Wellington would be the better choice. However, knowing you, I'm sure you'd prefer to do sport, have wild beach parties and swim in the sea.

Last but not least you will have to think about who you are going to work with. The animation team consists of a group of about four to eight people. They would all be your colleagues. Working as a waitress you probably have to accept a subordinate role to a boss who might be nice or strict: it will be a matter of luck.

All in all, I think both jobs would be a really good chance and you'll have think hard before you decide. I can't wait to find out which one you choose!

Best wishes,

...

## **Task B**

... When I was planning the activities for my summer holidays, I thought about doing something really exciting, something you can combine with being together with people and spending some time outdoors. Then I realized what I wanted was an adventure. When I told Robin, who wanted to go with me, he agreed and we searched the internet for cool holidays. We found a website which offered a kayak tour in the Bay of Islands.

The five days were full of adventure. Our group of six kayaked a lot and learned different kayaking techniques. And in the evenings we put up our tents and made a campfire. Apart from singing songs and laughing together, the most beautiful moment was when we kayaked down a waterslide and landed on the shore of the river.

And just imagine – I met Liam Schulz, the famous kayaker, who was doing the same tour as part of his training. We were able to ask him some questions and got an autograph – isn't that great?!

So you see, this summer holiday was unforgettable. However, there's one thing I would do differently on a future trip: I would schedule more time because five days are not quite enough to try out all the routes.

Hope your holidays were as good as mine!

Bye for now and best wishes,

...
